### Bleed Area

You will need to extend your design to fill the bleed area. This area will be trimmed to make sure you don't have any unwanted white lines.

### Cut Line

This is where we aim to cut your design to the finished size. Any part of your design placed outside this area will be cut off.

### Safe Zone

The safe zone is 3mm inside of the cut line. Make sure all important elements and text are kept within this blue area.
